What's different in your product?

Turn your smartness inside out

Product Name

Smart Waste Bin

Product description

Devices integrated in waste bins to optimize waste collection and management. The Product embeds an innovative and patented sensing technology based on optical principles, able to estimate waste quantity in a fast and reliable way. Smart power management lets devices be operative for many years with a small battery. Collected data are elaborated and sent to a cloud-based system that plans and optimizes waste management activities, so that the process carbon footprint becomes much lower.
